Recent Paintings by Kenton Nelson • On view June 20 - September 8

Nelson's paintings have been featured on the cover of The New Yorker magazine, in private collections of celebrities, seen on the walls of Hollywood movies, and on exhibit around the world. His oil paintings of figures, objects, and architecture have, as one critic said, "single-handedly resurrected the sun-drenched optimism of New Deal American Painting."

This exhibition is underwritten by Dr. Standiford and Noel Helm.
